

Super Nova School announces admissions on limited merit-based seats for academic session 2020-21. Although the qualification criteria is 65% marks yet the acceptance rates are quite low.

## Intakes for the Academic years 2013 - 2019

In our first academic year 2013-14 about 375 students sat in our Entry Tests and only 150 (40%) got accepted. Whereas another 75 qualified for the interview based A-Levels seats.

For the academic year 2014-15 about 500 students sat in the Entry Tests of which 150 (30%) earned the admissions. Another 125 students got admissions on the interview based A-Levels seats.

In the academic year 2015-16 about 600 students sat in the Entry Tests of which 250 (42%) earned the admission. Another 175 students got admissions on the interview based A-Levels seats.

In the academic year 2016-17 about 700 students sat in the Entry Tests of which 300 (43%) earned the admission. Another 200 students got admissions on the interview based A-Levels seats.

In our fifth intake for the academic year 2017-18 about 1100 students sat in the Entry Tests of which 526 (48%) earned the admission. Another 250 students got admissions on the interview based A-Levels seats.

In our sixth intake for the academic year 2018-19 about 1200 students sat in the Entry Tests of which 496 (41%) earned the admission. Another 270 students got admissions on the interview based A-Levels seats.

In our seventh intake for the academic year 2019-20 about 1290 students sat in the Entry Tests of which 520 (40%) earned the admission. Another 300 students got admissions on the interview based A-Levels seats.

Sharing this information of low acceptance rate is not to intimidate the applicants but is to encourage and motivate them to come prepared. It was noticed that students did better in the second attempt than on the first attempt. Knowing the difficulty factor helps.

Levels according to Age Eligibility:

Playgroup	2+
Nursery	3+
KG	4+
Prep	5+
Grade 1	6+
Grade 2	7+
Grade 3	8+
Grade 4	9+
Grade 5	10+
